

Empowering Dynamic Leaders

Educational Initiatives

WRG is committed to building and empowering tomorrow's leaders through our global products and services that focus on leadership development skills in the educational arena. Our programs utilize a regional presence to address the professional and educational development disparities in the communities we serve. Our business model encompasses a comprehensive approach that integrates all stakeholders to ensure sustainability, accountability and measurability.

Student Leadership Academy Certification Program

This program is designed for college students and high school students who participate in dual enrollment college level courses. Sessions are built upon life skills so that students can excel as servant leaders in the classroom and in their local communities. In a comfortable learning environment, students engage in interactive, informative and self reflective sessions that conclude with extensive coaching and follow-up.

Young Professional Leadership Academy Certification Program

This 12 month program caters to entry level professionals with a strong emphasis on enhancing leadership development skills necessary for career advancement. Sessions are derived from WRG's Purposeful Leadership Academy with a dedicated emphasis on "Leadership in the 21st Century". The dual outcome of the program is to build dynamic leaders whose knowledge, skills and abilities are properly alignment with corporate business objectives.

Professional Development Training For Educators and Administrators

This program is designed for the faculty of Charter Schools and Independent School Districts. The program provides a practical model to build leadership in the classroom and beyond. The ultimate goal is to raise student achievement.

GPS For Success

This program is designed to address the critical leadership training needs for High School students. The program will afford disadvantaged students to take advantage of relevant workshops to be presented throughout the school year. This program provides the essential training skills, exposure and planning necessary for student's successful transition through their High School years and post secondary options. After engaging in this leadership development program, students will build confidence, self-esteem, conflict resolution, knowledge and leadership skills to effectively lead a Purposeful Life with a "Can Do Attitude" for success.
